## DETAILED ACTION

### *Specification*

1. The previous objection to the specification is withdrawn due to the amendment filed on November 27, 2006.

2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o).

Regarding claim 41, in the remarks submitted with the amendment of November 27, 2006, applicant explicitly stated, "Applicant believes that a 'computer-readable medium in which program instructions are stored' is inherently tangible."

If the claims are to be interpreted in this manner, then the claimed "computer-readable medium in which program instructions are stored" does not have proper antecedent basis in the specification, which includes tangible embodiments (e.g., CD-ROM) or intangible embodiments (e.g., "software ... in electronic form") or both (e.g., "alternatively or additionally"). Note page 12, lines 19-25.

Correction is required.

3. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 41-60 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 41 has been amended to include a “tangible computer medium” in line 7. However, this medium is part of the “computer software product” of line 1. Thus, the scope of “tangible” is unclear because software cannot comprise hardware.

***Claim Rejections - 35 USC § 101***

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 41-60 are rejected under 35 U.S.C. 101 because they are limited to software embodiments. Note Section 4 of this Office action. The scope of “tangible” as presented in claim 41 is in question and may itself be limited to software. As such, the claims are not limited to statutory subject matter and is therefore non-statutory. Note MPEP 2106.

***Allowable Subject Matter***

8. Claims 1-40 are allowed.

***Response to Amendment***

9. The amendment filed on November 27, 2006 and the associated remarks have been carefully considered by the examiner but are not deemed to place the claims in condition for allowance, for at least the reasons given above.

***Conclusion***

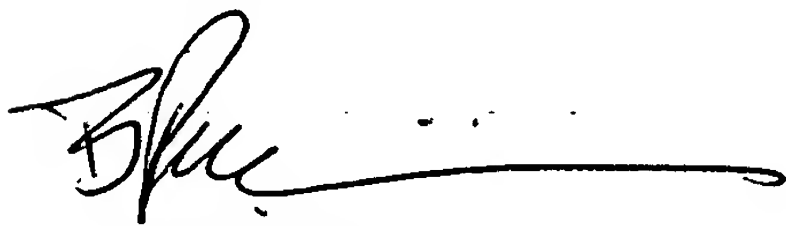

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
